Fly With Me

Verse 1

It will take some time to heal a wounded heart  
But in the Land of Light love conquers all  
I promise you my love will melt your pain away  
Take my hand in yours, take a leap of faith  
I am by your side, I won't let you fall  
Spread your wings and fly!

Chorus:

Fly with me, my Angel  
Take a Leap of Faith  
Fly with me into the Land of Light/Love

Verse 2

I know every thought you have, every step you take  
What mistakes you make and what you're going thru  
In good times and bad times, I'll be always there for  
you  
Your soul is bright, and your spirit's strong  
Where there's a will, there is a way - no matter how  
hard or long  
You'll make it there, so easily, take a Leap of Faith!
