When I disappear, do you fear for my sister and talk
When I disappear, it is clear I am up to no good
I am dreadfully blunt, letting this time, waiting for too
long
So the last thing you realize you'll miss what you've
already got

So touch me or don't, just let me know
Where you've been

Please draw me a line with a hook and some raw
bleeding bait
Well, I am uncaught and still swimming alone in the
lake
Shimmering under a moon made in anger and angst
Shimmering like a penny out of reach in the subway
grate

Touch me or don't, just let me know
Where you've been

We could leave it alone, I'm sure there's someone who
knows
Where you've been

You never worked well with our group
Not with the faults we found
So we fixed you with cement galoshes
And no one can save you now

Unless you have friends among fish
There'll still be no air to breathe
You could drink up the entire ocean
I'll still find someone to be everything we know that
you'll never be

So touch me or don't, just let me know
Where you've been
Or we could leave it alone, I'm sure there's someone
who knows
Where you've been
