Verse 1:

Trees will make a forest  
Trees will make a boat  
These are all the harder  
Words you have to know  
Waiting for her family  
She threw a fit  
Now she's got a brick house  
There's no children in it

Verse 2:

Cars are little bloodcells  
We are oxygen  
City is the airway  
Suburbs appendages  
She was feeling lonely  
She left the hive  
Drove her down to Texas  
And he bought a bride

Chorus 1:

Little cities labeled on no map  
Tied her up and laid her on the train tracks  
(Verse 2)

Little city is miserable on the map  
tied her up and laid her on the train tracks  
(verse 1)
