Your bowels infested - with embryonic mucus
Munch the saprogenic entrails - and desecrate the
festered stiff

Ileum turns into lytic gore - devouring your skull
Collapsed internal parts - dislocated with a painful
twitch

Pustulate, suppurate

Your innards now
A hot sticky mess
The oozing caress, of internal gases

Seeps out of your pores, a sickening, nauseating
stench
Your cervix torn wide open - revealing a jelly mess
Your innards tumble out - in total disorder...
