Exhume to investigate  
Reflect on corpse criteria  
The perfect specimen, suitably fresh  
Untouched by disfiguring trauma

The grave robbing business  
A lucrative offence

Appropriate subjects in shortage  
Mucopurulent stiffs refused  
Gaseous corpses discharging pus  
Unacceptable for medical purpose

Create your own cadaver  
Deliver the recently dead

Defile and disinter the freshly deceased  
Inadequate to meet the growing needs  
Furtively smother the sacrificial mark  
A fine cadaver to pride the anatomy slab

A lethal business venture  
Anatomical counterfeiting  
A murderous vocation

Cadavers fermented to gunk  
Entirely inappropriate  
likewise the crushed and gored remains  
of bloody industrial mishaps

Efficient body snatchers  
Reap the harvest of death's mailing

Defile and disinter the freshly deceased  
Inadequate to meet the growing needs  
Furtively smother the sacrificial mark  
A fine cadaver to pride the anatomy slab
