"From A To Z"

Visit "[From A To Z](#)" on MotoLyrics.com

Don't want to know your political message
Got no comments on religious preference
I'm not moving forward with technology
I'm just trying to figure out destiny

Where do you go far from extremes?
Block out the noise
And get release
What does it take to crawl from A to Z?
What color pill to find the remedy?

Don't wanna live under nobodys laws
Won't martyr myself nobodys cause
Just need a place to rest my head
Get some shelter
From all that's said
And said

Where do you go far from extremes?
Block out the noise
And get some release
What does it take to crawl from A to Z?
What color pill to find the remedy?
From A to Z
From A to Z
Come set me free
