# "Beloved Summer"

Visit "[Beloved Summer](#)" on MotoLyrics.com

Stepping out the back way  
Hoping nobody sees  
Feeling can be easy  
Think how I feel

What will can you say?  
What will you do?  
Why can't you see?  
It's yourself I love

Don't you know I'm not asking  
You must have made up your mind  
Is it worth the pain you're causing  
To those you're leaving behind

What will you say?  
What will you do?  
Why can't you see?  
It's yourself I love

Don't you know I'd like some answers  
You could give me a call  
I hardly know the reason  
And I really feel no good at all

Where will you go?  
Where will you be?  
Where can I try?  
It's yourself I love
