"There Must Be Some Other Way"

Visit "[There Must Be Some Other Way](#)" on MotoLyrics.com

You're no longer part of my life
I must remind myself again
Too much has happened to us
To 'cause each other pain
It's over now, there's too much guilt to share
Once there would have been a time
For talkin' and learnin'

There must be some other way
To get where we have to go
There must be some other way
Please show me another way
Once it would have been so easy
To do what we have to do
There must be some other way
Please show me another way

Are we no more than parts in a play?
Lettin' other people, strangers say our lines
To think it should come to this
After all these years
What was mine and what should stay behind?
Once there would have been a time
Of sharin', of carin'

There must be some other way
To get where we have to go
There must be some other way
Please show me another way
Once it would have been so easy
To do what we have to do
Must be some other way
(There must be some other way)
Please show me, show me another way

There's nothin' much left to say
We have said it once and said it all again
This time we have gone too far
It could never be the same
It's time to carry on create new lives
Once we promised we would stay
Together, forever

There must be some other way
To get where we have to go
(There must be some other way)
There must be some other way
Please show me another way
Once it would have been so easy to do
What we have to do
(What we have to do)

You know there must be some other way
Please show me another way
You know there must be another way
Please show me, show me another way
(There must be some other way)
You know there must be some other way
