Dance, let your body go
You know you can do it
Like, ee-ne-me-ne-manny-mo
There's really nothing to it

Dance, let your body go
You know you can do it
Like, ee-ne-me-ne-manny-mo
There's really nothing to it

You can do it
And you know that you can
There's nothing to it
Just go ahead and do your dance

You can do it
And you know that you can
There's nothing to it
Just go ahead and do your dance

Get up and do your thing
You know you can do it
And don't you be ashamed
There's really nothing to it

Get up and do your thing
You know you can do it
And don't you be ashamed
There's really nothing to it

You know you can do it
So get up and move your body to it
Don't be afraid to do your thing
No such words as being ashamed
Everybody, boogy tonight

Get up and do your thing
You know you can do it
And don't you be ashamed
There's really nothing to it

Get up and do your thing

You know you can do it
And don't you be ashamed
There's really nothing to it

You know you can do it
So get up and move your body to it
Don't be afraid to do your thing
No such words as being ashamed
Everybody, boogy tonight

Dance, let your body go
You know you can do it
