Bonded to my breast from birth, milkin me to purify  
Nurse your growing hunger for the fluid that will satisfy

Feel my body swelling, engorged to overflow

Pump your filthy mouths into your willing guts below

Shake!  
When you're feeling empty, feeling oh so low

Nurse upon my body, bask in the warm womb glow

Pump you filthy mouths into your willing guts below  
Can you feel my body swelling? Engorged to overflow

Now you shake until your master calls you

Shake until your mother bleeds  
Shake until the fluid calms you

Till you suckle form the one who feeds

Filling the void inside you, toasty warm it's oh so nice  
Seeking worldly pleasure, mother's milks not your only  
vice

Can you feel my body swelling? Engorged to overflow

Now you shake until our master calls you  
Pump your filthy mouths into your willing guts below

Shake until your mother bleeds  
Shake until the fluid calms you

Still you suckle from the one who feeds

Oh, don't try to crawl back inside, from where you  
cameLying here beside me, take it all from my body
