Writhe among the flesh. Stroke your fearful eyes  
Penetrations will collide as I crawl inside  
As your eyes begin to slip, you come alive in my caress  
As our greedy fingers dig deep on the edge of  
dreamless sleep  
Live steel drives deep  
Senses surging in you when you sleep  
Come to me, taste the need  
Painfully urging me to watch you bleed  
I put the needle in you. I like you on your back  
Velvet dreamsâ€¦a quick solution to set you all free  
As your sex begins to drip the scent reminds you of my  
grip  
Your ruptured senses will divide as I slip inside  
Live steel drives deep  
Senses surging in you when you sleep  
Come to me, taste the need  
Painfully urging me to watch you bleed  
I put the needle in you. I like you on your back  
Velvet dreamsâ€¦dig your fingers in me  
I like you on your back  
Watch you quiver. Watch you shake  
Writheâ€¦as I crawl inside  
When you're here all alone  
When you're dreaming watch you screaming  
Deeperâ€¦Drive it deeperâ€¦Drive it deep inside of me  
Pain in places you never knew, as my world slips into  
you  
Live steel drives deep  
Senses surging in you when you sleep  
Come you me, taste the need  
Painfully urging me to watch you bleed  
I put the needle in you. I like you on your back  
Velvet dreamsâ€¦dig your fingers in me  
I like you on your back  
Watch you quiver, watch you shake  
As I crawl inside  
When you're here all alone
