Basic instructions before leaving earth

Life is a test, many quest the universe  
An' through my research, I felt the joy an' the hurt  
The first shall be last an' the last shall be first  
The basic instructions before leaving earth

Life is a test, many quest the universe  
An' through my research, I felt the joy an' the hurt  
The first shall be last an' the last shall be first  
The basic instructions before leaving earth

Knowledge this wisdom, this goes back when I was  
twelve  
I loved doin' right but I was trapped in Hell  
Had mad ideas, sad eyes an' tears  
Years of fears but yo, my foes couldn't bear

I searched for the truth since my youth  
An' went to church since birth but it wasn't worth the  
loot  
That I was payin', plus the prayin'  
I didn't like stayin' 'coz of busy bodies an' dizzy hotties

That the preacher had souped up with lies  
Had me cooped up lookin' at loot, butt an' thighs  
Durin' the service, he swallowed up the poor  
An' after they heard this, they wallowed on the floor

But I ignored an' explored my history that was untold  
An' watched mysteries unfold  
An' dropped a jewel like Solomon but never followed  
men  
'Coz if you do, your brain is more hollow

Than space oblivion or the abyss  
With no trace of trivia, left with the hiss  
Does it pay to be deaf, dumb, blind?  
From a slave we was kept from the mind  
An' from the caves he crept from behind

An' what he gave was the sect of the swine

When the Bible, it condemned the pig  
I don't mean to pull your hems or flip your wigs  
But we used to wear a turban but now we're in the  
urban  
No more wearin' beanies an' dress like a genie

No hocus pocus 'coz I focus on the facts  
An' put it on the tracks an' brought it through the wax  
I speak on Jacob, it might take up some time  
An' too much knowledge, it might break up the rhyme

I did it anyway just to wake up the mind  
Of those who kiss stones or prays on the carpet  
Those who sit home or sell books by the market  
Need to chill an' get their mind revived

For years religion did nothing but divide  
The basic instructions before leaving earth

Life is a test, many quest the universe  
An' through my research, I felt the joy an' the hurt

The basic instructions before leaving earth

I strolled through the books of Job to unfold  
An' open Bibles instead of hopin' on revivals  
Calling on His name an' screamin', "Hallelujah"  
When He hardly knew ya, that's how the Devil's fooled  
ya

See, look into my eyes, brethren, that's the lies of a  
Reverend  
Why should you die to go to Heaven?  
The Earth is already in space, the Bible, I embrace  
A difficult task I had to take

I studied 'til my eyes was swollen an' only arose when  
I found out that we were The Chosen  
I deal with the truth an' build with the youth  
An' teach my son as he kneels on the stoop

Son, life is a pool of sin, corrupted with foolish men  
An' women with wicked minds, who build picket signs  
To legalize abortion, the evil eye distortion

I quiz son with my wisdom

Before I converted, I was perverted an' knowledge was asserted

The study of wisdom, I preferred it

The understanding, it gave me mental freedom

I even learnt Caucasians were really the Tribe of Edam

The white image of Christ is really Cesare Borgia

An' uhh, the second son of Pope Alexander

The sixth of Rome an' once the picture was shown

That's how the Devil's tricked my dome

I prophesized to save a man but no one gave a damn

For my nation, the seed of Abraham

Blessed with the tongue of Hebrew

Now we're strung on needles an' some are plungin'

evils

So study an' be wise in these days of darkness

Peace to my nephew, Marcus
