BASIC INSTRUCTIONS BEFORE LEAVING EARTH

(2x)(CHORUS 2x)

the basic instructions before leaving earth
life is a test may we quest the universe and through my
research, i felt the joy and the hurt
the first shall be last and the last shall be first
knowledge is wisdom, this goes back when i was twelve
i love doing right but i was trapped in hell had bad
ideas, sad eyes and tears
years of fear, but yo my foes couldn't bear i searched
for the truces in youth
and with the church's birth but it wasn't worth the loot,
that i was paying
plus the praying i didn't like staying cause of bizzie-
bodies and dizzy-oddies
that the preach-ass souped up the lies
had couped up lookin at loot, butt, and thighs
durin the service, he swallowed up the poor
and after they heard this, they wallowed on the floor
but i ignored, and explored my history that was untold
and watched mysteries unfold and dropped the jewel
like soloman
but never followed men cause if you do your brain is
more hollow then
space oblivia, or the abyss with no trace of trivia, left
with a hiss
doesn't pay to be deaf dumb or blind from a slave he
was kept from the mind
and from a cave he crept from behind a what he gave
was a sack of the swine
when the bible, that condemned the pig
i don't mean to pull your hems or flip your wigs but we
used to wear turbins
but now were in the urban no more wearing benies or
dress like the genie
no hokus pokus cause i focus on the facts
and put it on the track or put it through the wax
i speak on jacob it might take up some time
and too much knowledge it might break up the rhyme
i did it anyway just to wake up the mind
of those who kiss stones or prays on the carpet
those who sit at home, or sell books by the market

need to chill and get their mind revived
for years religion did nothing but divide chorus
i strolled through the books of joah the unfold
and opened bibles instead of hoping on revivals
calling on his name and screaming alleuia when he
hardly knew yathat's how the devil fooled yasee look
into my eyes breverand
that's the lies of a reverand why should you die to go to
heaven
the earth is already in space the bible i embrace a
difficult task i had to take
i studied till my eyes were swollen and only arose when
i found out that we were the chosen i deal with the
truth and build what they use
and take my son as he kneels on the stool son, life is a
pool of sin
corrupted with foolish men and women with wicked
mind who build picket signs
who legalize abortion the evil eye extortion
i quiz some with my wisdom, before i converted i was
perverted
and knowledge was asserted the study of wisdom, i
perferred it
to understand it it gave me mental freedom
i even look caucasian, but really the tropoedom
the white image, of christ, is really ceaser or yea, and
ah
the second son of pope alexander the six of rome, and
once the picture was shown
that's how the devils tricked my dome i prophesized to
save a man but no one gave a damn from my nation, the
seed of abraham
blessed with the tongue of hebrew now we're strung on
needles
and some are pleasure evil to study and be wise in
these days of darkness
peace to my nephew marcus chorus
