

Brand New Sin "My World"

Visit "[My World](#)" on MotoLyrics.com

Yeah

To you it seems to be
A place that has all the things that you ever wanted
To me it all the same story that's happened before but
still we can touch it

My world...
Has forsaken me
My world...
Has passed over me and given to the other(x2)
To them it's always been a place to say what you want
when you have a second to us we know the truth about
what's going down and what's going to happen
My world...
Has forsaken me
My world...

Has passed over me and given to the other(x2)
So as the story's told our lives unfold and the truth
shines through again making it all seem so much
clearer let down again

To you it seems to be a place that has all the things that
you've ever wanted To me it's all the same story that's
happened before but still we can touch it
My world...
Has forsaken me
My world...
Has passed over me and gave it to the other(x3)

MY WORLD!
