A long time
He sat there
Realize now
You're holding on too fast
Slow it down, slow it down
Hold it down
Look around
See what you found yeah

See the sun shining

A long time
It's been that way
Realize now
Times change but still it stays

Telling lies, telling lies
Alibis
You still deny
You have survived

The peaceful mind
The smoking gun
Out of dark
I'm on the run
I am the one
The chosen one
I see the sun
I see the sun
