Listen to his voice and hold on steady
We moving on and on

After a storm there must be a calm
You shoulda never go resign
Remember seh Jah love already there before you born
His love is so pure and devine

Just keep that smile on your face make it an easy day
Never let dem get you down cause you will make it

With Jah love ina your heart I'm sure you will never go

And while the sunshine you got to make hay
Jah Jah a the water to my root the only truth
Me nuh go stop work and try until me reap the fruit
And as long as there is no justice man hafi go revolute
Just tell the children the truth

Try your very best to take away me joy
