

## Gentleman "Mount Zion"

Visit "[Mount Zion](#)" on [MotoLyrics.com](#)

Take me to a place  
Where there is love and happiness  
Mount zion is my home got to find the higher zone  
Never will I be a rollin stone  
I know there is a place  
That embrace the human race  
And it nuh matter who you are you'll be shining like a  
star  
As long as there will be no more war

Police and badman dem in a permanent war  
And from me see how dem FX make know Dem not go  
ritch far  
Dem a fighting one another just to be the star  
Everybody claim's say that dem are the biggest gungar  
Me hafi ask the question what dem fighting for  
How good the thing coult be if all a we could spar  
No more dead bodies laying out on the tar  
How dem act so bizarre

Take me to a place  
Where there is love and happiness  
Mount zion is my home got to find the higher zone  
Never will I be a rollin stone  
I know there is a place  
That embrace the human race  
And it nuh matter who you are you'll be shining like a  
star  
As long as there will be no more war

I'm praying unto jah for dem to wake up  
And purge out dem dutty ways to take up  
Dem sin a pile up on dem and it a cake up  
Babylon your world ago get shake up  
All a the innocont heart that you break up  
And the story that you formulate and make up  
Wicked man your whole house ago get rake up  
A better place jah ago take us

Take me to a place  
Where there is love and happiness  
Mount zion is my home got to find the higher zone

Never will I be a rollin stone  
I know there is a place  
That embrace the human race  
And it nuh matter who you are you'll be shining like a  
star  
As long as there will be no more war

If I now know when that hapend  
And what whappen to dem  
We have fi follow on the path again that jah  
recommend  
This is up to you and me fi gwaan set the tchain  
None a dem caan stop the message we all send  
We see sam in dis world a peer make believe and  
Brainwash education is pure fake believe and  
Babylon a try dem best to make us grieve and  
That's why we get up and go leave

I know there is a place  
That embrace the human race  
And it nuh matter who you are you'll be shining like a  
star  
As long as there will be no more war  
Take me to a place  
Where there is love and happiness  
Mount zion is my home got to find the higher zone  
Never will I be a rollin stone
