And it took like you left that behind  
Words and sound combine  
Hafi give thanks fi the power of devine  
Lost in search of the big goldmine  
And ina darkness blind man e lead blind  
With no limitaion I man feel fine  
Living on the edge cause Jah love it is mine  
And as they blasphem and plat and scheme  
I man still see Jah wonders and signs

And me nuh ina your hear say

And me nuh ina your leh leh  
And joy when dis ya tune a play

If a Jah Jah man you want overthrow  
Ina siknking ship you a row

Cause he will cut you down and he will mash you down  
Like the tide that ebb and flow  
Weed and tears must grow  
Until the time of harvest we know  
Many a call but the chosen a few  
And the almighty god a say so  
Man hafi go meditate and tek it slow  
Riding high when you should deh pon the low  
And you can't flop fast if you stick to your task  
And the flowers ina your garden will grow

Chorus

Stop play the fool and attend your classes  
Nothing you a see you must want glasses  
Sit down and complain and then you perplex fi flex  
So your tribulation never passes  
We living ina wolrd full jackasses  
Every day dem get up and a ball bout dem crosses  
And dem standing at the gate and the whole a dem a
