"You'll be always mine... all through your life  
think you'll find, you'll be always mine...  
all through your life, think you'll find  
you'll be always mine"

[Sadat X]

You gon' always be mine, no matter who else in line  
And deep down, you know that in your heart  
We occasionally live life dreams  
Time stood still, and split up the seams  
Years can be brutal but it served you well  
You mighta gained a pound but I can't tell  
Who me? I'm in the same vein, healthy  
Not as wealthy as I wanna be, but I'm aight  
But to you that never mattered anyway  
I couldn't stand in yo' way when you choose to grow  
Said you had to follow yo' lifelong dreams  
to the lands of the stars, cameras, lights  
Bright sunny days and we parted our ways  
Then the hourglass with the sand slipped fast  
Now we are where we are today, in oh-four  
And maybe it'll happen once more  
But if don't, know our time together was golden  
Memories I'ma keep holdin, and know I'm here  
And one more thing my dear ("All through your life,  
think you'll find")  
("You'll be always mine... all through your life  
think you'll find, you'll be always mine...")

[Lord Jamar]

Yo, we first met in junior high  
I was so shy, you was so fly  
At first I done knew you would be mine  
Clocked in, started doin my time  
Walkin you home, hours, we talked on the phone  
Eventually, we started to bone  
In a whirlwind, you became my girlfriend  
We used to both rock the matchin Sherlings  
With the sweatshirts, with our names on it  
On the back it had our love proclaimed on it  
Then we broke up, and got back together

Then we broke up, and got back together  
It was like that, for what seemed forever  
Then it got to the point that we had to sever  
The years had passed  
And wouldn't you know it, met and her yo we crossed  
paths  
And I have to laugh  
Cause it didn't take nuttin for a nigga to smash, cause  
("All through your life, think you'll find")  
("You'll be always mine... all through your life  
think you'll find, you'll be always mine...")

[Grand Puba]

I couldn't wait to walk to school each day  
And wait for you to pass my way (uh-huh)  
I never really had nuttin to say, but  
how ya doin, and have a nice day  
Until one day, one Monday  
I put the mack down, recess playground  
Ever since then homegirl been down  
Feelin my style cause I wasn't no clown  
From, element through the college days  
Did shows after school, used to bring you backstage  
We reminisce on how we used to play  
When I got sick, you got sick the same days  
Okay? (okay) you know how that go (yeah)  
Mom at work, so we got the fo'  
Half hour for the cleanup then you out the do'  
Walked down one flight to be safe fo' sho'  
After, all that shorty love still with it  
How I put my thang down and the way I hit it, so  
("All through your life, think you'll find")  
("You'll be always mine... all through your life  
think you'll find, you'll be always mine...")
