[Puba]

Now don't get caught up by the corner  
You know these blocks be hotter than a sauna (young  
son)  
Don't let them peers put the pressure on ya  
And when you make moves, make moves cause you  
wanna (young son)  
Don't get caught up on some monkey-see, monkey-do  
Stay focused, and understand the thug in you (young  
son)  
And just handle your business  
And always be persistent, like Jehovah's Witness  
(young son)  
and never take no for a answer  
unless it be a chick cause you could end up in some  
shit (young son)  
like some bull shit they hit Kobe with  
you dont want to be a baby daddy better rubber it  
(young son)  
see am just telling you what I know  
dont let haters mess with your flow  
dont be stupid and trick your dough  
and always be careful of them shiesty hoes (young  
son)  
yea

[chorus - 5X]

young son don't let me down young son am trusting  
you

[Jamar]

I need you to hold the fort down  
I ain't liking how this judge in court sound  
I might have to spend time away from the fam  
And if I do then I'm a need you to act like a man (young son)  
This is no time for tears  
It's time for you to man up, time to face your fears  
Looks like your old dad might face some years  
Don't allow the family name to be disgraced and smeared (young son)  
Protect your mother and little sister  
If anybody diss them become the pain inflictor  
So much responsibility I hope you can handle it  
Here take this 9 mill son I hope you can handle it (young son)  
You're my only hope for the future  
And knowing you can do it gives me hope for the future  
Son I trust you this is something that you must do  
Till they release me from these walls or I bust through (young son)

[chorus - 5X]

young son dont let me down young son am trusting you  
young son

[Sadat]

One young son, he want to get a scholarship  
The other want to get a whip from the car dealership  
Chips off the old' block is what pop will say  
One's on the court, one's in court all day  
A mother's heart smiles and it grieves at once  
She cries at home, but in the public she fronts  
'Where did we fail? How did we prevail?  
From the diploma ceremony to the jail it's a journey  
One wants to beef one one needs a attorney  
Two separate from life there heart beats as one  
They came in to this world together as twins  
And as long as the world spins they'll be joining  
You could say one was annoying the other  
disappointed  
But they still love each other they should there brothers  
Son get your brother out of jail  
Because with a little bit of love he can heel (young son)

[chorus - 5X]

young son dont let me down young son am trusting you  
young son (s\*cratching\*)
