"Evolution... REDEFINED"

Visit "[Evolution... REDEFINED](#)" on MotoLyrics.com

Darwin first did the imminent service of arousing attention to the probability of all change in organic, as well as in the inorganic world, being the result of law, and not of miraculous interposition. For all life is a continuum. All living things despite their awesome diversity are related to each other. And evolution is the term we give to that process, by which the structure of plants and animals changes with the passage of time thus accounting for the continuum.

I was staring through the blackboard trying to keep from sleeping,
doing my very best to hear the subject they were teaching.
When to my surprise, I couldn't my believe my ears,
this is what you looked like back a million years.
Your uncle was a monkey, he was swinging through the trees,
he lived on green bannanas, and his arms swung to his knees.
He spoke with such conviction, it really made me think,
Maybe my teacher, He's the missing link!
He said...

I believe in evolution,
ask me no questions, I'll tell you no lies.
It's the only possible solution,
Big Bang fiction, that we factualize.

Therefore Crow Magnum Man!

It takes a lot of faith to say we're accidents of nature,
but I believe we are the work of a loving Creator.
Now you can wait a million years and hope that nature does it's part,
but it only takes a moment, for God to change a heart.
That's why...

I believe in evolution,
changing of the heart, renewing of the mind.
It's the only true solution,
God is always working, changing lives (changing lives),
It's evolution redefined.

I used to trust in natural selection,
my survival was all I could see.
My evolving to perfection,
Started when God rescued me.

I believe in evolution,
changing of the heart, renewing of the mind.
It's the only true solution, God is always working,
changing lives.

I believe in evolution,
changing of the heart, renewing of the mind.
It's the only true solution,
It's evolution redefined.

I believe in evolution,
changing of the heart, renewing of the mind.
It's the only true solution, God is always working,
changing lives.

I believe believe in evolution,
changing of the heart, renewing of the mind,
It's the only true solution, It's evolution redefined.
