I see love and beauty all around, I also see the sadness  
that's embedded in your frown  
I wonder why you choose not to talk to those around, I  
sense a fear of lifting heavy feet  
higher than you want to, I just want to believe your  
truth...

you stand there but you do not cast a shadow, you walk  
away with every word you choose not to say  
I suppose that moving on paints a new colour for each  
day, I don't like to see  
dreams put on the shelf, to deal with on that one day, I  
just want to be happy for you

'cause I only have one second, this minute today  
I can't press rewind and turn it back and call it now  
and so this moment, I just have to sing out loud  
and say I love I like and breathe in now  
and say I love I live and breathe in now

I move on holding on to what I learn, it's time to move  
on from the notion  
that the whole world's against me  
break free of shackles that formed young, time free in  
now  
and now I know, it's not all up to me, I can count on  
another  
so move on lighter and be free ....

'cause I only have one second, this minute today  
I can't press rewind and turn it back and call it now  
and so this moment, I just have to sing out loud  
and say I love I like and breathe in now  
and say I love I live and breathe in now

I believe in for today I just want to know that you're  
okay  
cause I believe in breathing just for today  
I just want to know that you're okay....

'cause I only have one second, this minute today

I can't press rewind and turn it back and call it now  
and so this moment, I just have to sing out loud  
and say I love I like and breathe in now  
and say I love I live and breathe in now  
and say I love I live and breathe in now
