With a grain of faith
They say you can move a mountain. (mountain)
And from the crater made,
Your dreams will flood like from a fountain.

This is my life,
What I raise my hand for.
This is what I...
What I stand for.

What gets your through the day?
What is your saviour?
Faith, soul, faith,
There is no failure.

This is what I...
What I raise my hand for.
This is what I...
What I stand for.

With a grain of faith.
With a grain of faith.

In the dominis(?) this is your life
Hear the dominis(?) this is your life, this is your life
With a grain of faith.
Plug in and hear the noise
This is your life; it's what you signed for
This is your life; it's what you signed for
What's up? What's up? What's up?
With faith you could move a mountain.

This is life
What I raise my hand for.
This is life
What I raise my hand...
This is life...
What I raise my hand...
What I, what I stand for.
