Come on
How can I make you see that it's cool
And who's to say we're breaking the rules
You know what I want to do is obvious to you

I feel trouble when you touch my hand
Let's take it slow
We don't have to go right now
It's alright, I hope you understand

So come on
Why can't you let me be your baby
Let me be your baby
Why can't we take it slow
There'll be nothing to go
If I was your baby

Sometimes
There's so much that I won't to way
Something inside that makes me turn away

But won't you hesitate
You beg me too late
But you don't know what's going on inside my heart
If you let me in then we can begin right now
Knock on my door and we can make a start

So come on
Why can't you let me be your baby
Let me be your baby
Why can't we take it slow
There'll be nothing to go
If I was your baby

Sometimes in my heart
Sometimes my soul take control
Sometimes, oh no
I knew what's on your mind
Why can't you let me be your baby
