She's got the eyes of a black cat,  
She's got the looks of a demon.  
She's got the eyes of a black cat,  
She's got the looks of a demon.

[Chorus]

Get back black cat, why don't you leave me?  
Get back black cat, why don't you go?  
Get back black, why don't you leave me?  
Get back black cat, why don't you leave me?  
Get back black cat, why don't you go?  
Get back black cat, why don't you leave me?

She's always there when she wants you,  
She casts a spell and she's got you.  
She's always there when she wants you,  
She casts a spell and she's got you.

In the day she seems alright she walks around until the  
night  
But when the moon comes over the hill

[Chorus]

Get back black cat, why don't you leave me?  
Get back black cat, why don't you go?  
Get back black cat, why don't you leave me?

Get back black cat, why don't you leave me?  
Get back black cat, why don't you go?  
Get back black cat, why don't you leave me

[Chorus 4 times more]
