The perfect cover for the motiveless crime.
A murder in every city, you would have to be an idiot to
not catch on.
Blazing a blood trail across the country - this is the
perfect crime.
Our home is the road, and sometimes you get bored at
home.
So lay low, watch your back, and have some fun with
this.
Just don't wear your heart on your sleeve.
Now you're another number.
I've created a monster and he's a statistic.
Because life is a gamble and your luck just ran out.
You shouldn't be alive.
You think "This is true crime" was another line?
Think again because what we are doing is truly
criminal.
I'll tell you everything you want to know.
Consider yourself to be a victim.
You all make me sick.
This is the land of opportunity.
I tied them up and watched them die.
Your chances of surviving this are slim to none.
So be a good girl and no one gets hurt.
So here we come; one by one or three at a time.
You won't find out until it's too late, and it's always too
late.
This is us against you and the world will never know.
