Work through joy through work the goddess of religion
dogma and guilt
Poor me start joyful destiny, respite guilt free passion
Grant fear of freedom sympathy god and myself god
and myself
To another place from respect joyful girl, thankyou

CHORUS

And I'm ready to release on another day, I'm ready to
respect the day today
I'm ready to respect myself today, I'm ready to release

Self-image confidence troubled comfortable blame
touching partake
With grace jealousy wisdom unabashed joy and me
you yum
Power transference to equality letting go joy again
Loving do unto others as to yourself, thank you

CHORUS

And I'm ready to release on another day, I'm ready to
respect the day today
I'm ready to respect myself today, I'm ready to release
on another day
I'm ready to release myself today, I'm ready to release

BRIDGE

Male female innocent carefree, fate honour and wrong
Success caressing a self love, do to yourself as to
