I see love and beauty all around
I also see the sadness thats embedded in your frown
I wonder why you chose not to talk to those who
surround
I sense a fear of lifting heavy feet
higher than you want to
I just want to believe your true

You stand here but you do not cast a shadow
I walk away with every word you choose not to say
I suppose that moving on paints a new colour for each
day
I do not like to see dreams put on the shelf
to deal with on that one day
I just want to be happy for you

cause I only have one second this minute today
I cant press rewind and turn it back and call it now ohh
and so this moment
I just have to sing out loud
and say I love, I like and breathe in now ohh
and say I love, I live and breathe in now

I move on holding to what I learn
it's time to let go of the notion that the whole world's
against me
break free of the shackles that formed young
time free in now, I tell you now
it's not all up to me
I can count on another
so move on lighter and be free

cause I only have one second this minute today
I cant press rewind and turn it back and call it now ohh
and so this moment
I just have to sing out loud
and say I love, I like and breathe in now ohh
and say I love, I live and breathe in now

I believe in for today
I just wanna know that your ok

cause I believe in for today
I just wanna know that your ok
ooh oo ooo

cause I only have one second this minute today
I can't press rewind and turn it back and call it now
ohhh
and so this moment
I just have to sing out loud
and say I love, I like and breathe in now ohh
and say I love, I live and breathe in now ohh
and say I love, I live and breathe in now
