4 o'clock in the morning, and I'm chilling with some  
friends  
Before the club we're hangin out until this girl walked in  
Caught me by surprise when she didn't say hello  
Had an attitude, why be so rude I know just what to do  
Walk the girl outside and politely gave my name  
Told the girl don't act this way  
I see right through your game  
What he did was such a shame  
Don't be living with his pain

So let it go tonight  
I see the beauty within your eyes  
So let it go tonight

I never thought that it would be me  
How could I be such a fool oooh  
And here I am saying girl I'm sorry  
For something I didn't do, this is my point of view  
Baby I never meant to fall for her  
Lately it's been driving me crazy  
Baby baby, you still and always will be my baby  
Oh yea...

It's 4 o'clock in the morning and it didn't take too long  
For the girl to change her tune and now she's singing a  
different song  
She's all up on me, kissing on me, grabbing on me  
What's a guy to when his brain is all muted  
Baby I'm not that guy  
I already got that someone in my life  
Baby I'm not that guy

I never thought that it would be me  
How could I be such a fool oooh  
And here I am saying girl I'm sorry  
For something I didn't do, this is my point of view  
Baby never meant to fall for her  
Lately it's been driving me crazy  
Baby baby, you still and always will be my baby

I let her in only before a minute girl

She was up in my mind  
But it was you I found a start  
You'll always have my heart  
Say my heart

I never thought that it would be me  
How could I be such a fool o oh  
And here I am saying girl I'm sorry  
For something I didn't do, this is my point of view  
Baby I never meant to fall for her  
Lately it's been driving me crazy  
Baby baby, you still and always will be my baby  
I never thought that it would be me  
How could I be such a fool o oh  
And here I am saying girl I'm sorry  
For something I didn't do, this is my point of view  
Baby I never meant to fall  
Lately you know I'm so sorry  
Baby baby, you still and always will be my baby
