She wrote me today  
That she won't be back to stay  
That she'll only come to pick up her clothes  
She wrote I must not cry  
That her love for me has died  
But she's found somebody else, I suppose  
Baby Blue, Baby Blue  
Do you know that I'm still in love with you?  
Now I know that you won't be here no more  
How I want you, how I need you Baby Blue  
I know I must forget  
All the good times we had  
But I know that I can't forget you  
You're still on my mind  
And I know I'll never find  
Such a girl as my sweet Baby Blue  
Baby Blue, Baby Blue  
Do you know that I'm still in love with you?  
Now I know that you won't be here no more  
  
How I want you, how I need you Baby Blue

Solo Âber Strophe

Baby Blue, Baby Blue  
Do you know that I'm still in love with you?  
Now I know that you won't be here no more  
How I want you, how I need you Baby Blue
