I've seen her smile in the morning light
It would take my breath away
I'd hold her close and hold her tight
Hopin' she'd let me stay
Inside her heart forever
And let me be

The air she breaths, the song I sing
Her destiny, what tomorrow brings
I'd give to her all I have
My heart and soul would be
Her everything

Each night I pray to the lord above
Hopin' she'll never leave
And I can't help but wonder why
She gives this love to me
And when we're old and gray
Will I still be

The air she breaths, the song I sing
Her destiny, what tomorrow brings
I'd give to her all I have

My heart and soul will be
Her everything

She must be an angel
To change my life this way
'Cause all I want to be to her
Is what she is to me

The air she breaths, the song I sing
Her destiny, what tomorrow brings
I'd give to her all I have
My heart and soul will be
Her everything
I'd give to her all I have
My heart and soul will be
Her everything
