"Few Less Breaks"

Visit "[Few Less Breaks](#)" on MotoLyrics.com

I been walking around with my heart in my hand
and I might ask you if you could ever understand
cause I can't take another break in my heart
so let me show you darlin where to start yeah
and I think you know how to love me
and I think you might go and tear me apart
and I think you know how to show me
but I can use a few less breaks in my heart

and if there ever was a big mistake I made
I'm still broke from all the prices that I paid
and I can't bring myself to linger in the past
I need something that I know is going to last

and I think you know how to love me
and I think you might go and tear me apart
and I think you know how to show me
but I could use a few less breaks in my heart

but i could use a anything it takes
I could use a few less breaks in my heart
a few less breaks in my heart
a few less breaks in my heart
