Oooo Ooooo

Lately my soul's been aching
It's like I'm stuck in this state of complacency
I love her with my whole heart
But we can't escape the fight
We break up, then make up the next night
Our relationship lacks trust
But neither one of us
Can seem to walk away
'Cause we're enveloped in this lust
And I know I won't leave, 'cause the sexual chemistry
Takes over her and me, and then I hear her scream
She says,

[Chorus]

Don't stop now
Baby my love's about to come down
And you know you got my head spinnin' 'round
And then I yell I won't stop now
Girl I'm 'bout to overdose on your love
Damn baby this is the perfect drug

She is my blessing and again she is my curse
She make me smile and turn around and make me
hurt,
Tell me how do I walk away from someone I love so
much
Especially if I get weak just from her touch
She knows just what to do to keep me coming back
Starts off with foreplay, then she's ready to attack
And I wonder how she did it 'cause she got the best of
me,
If pain is pleasure then she takes me to ecstasy
Screaming...

[Chorus]

Don't stop now
Baby my love's about to come down

And you know you got my head spinnin' 'round
And then I yell I won't stop now
Girl I'm 'bout to overdose on your love
Baby you're my perfect drug

I'm addicted to your hugs
I'm addicted to your touch
Don't matter what you do girl
'Cause I'm addicted to you love [Oooooo]
It don't matter if we fuss or fight
'Cause we gon' make up every night
Keep on doing what you do
'Cause I'm gon' give it to you right [Oooooo]
Love the way you tease me
Love the way you please me
You ain't goin nowhere,
'cause we both know you need me [Oooooo]
It don't even matter babe, whatever you heard
All I wanna hear you say is those three words
Screamin...

[Chorus]

Don't stop now
Baby my love's about to come down
And you know you got my head spinnin' 'round
And then I yell I won't stop now
Girl I'm 'bout to overdose on your love
Baby you're my perfect drug

Don't stop now
Baby my love's about to come down
And you know you got my head spinnin' 'round
And then I yell I won't stop now
Girl I'm 'bout to overdose on your love...
