There is no one in my life but you
[Incomprehensible]
Through the sun and rain, through the joy and the pain
I know that our love will remain

There is no one in my life but you
[Incomprehensible]
Through the sun and rain, through the joy and the pain
I know that our love will remain
There is no one in my life but you
[Incomprehensible]
Through the sun and rain, through the joy and the pain
I know that our love will remain

Through the sun and rain, through the joy and the pain
I know that our love will remain
