You look pretty as a picture
With those flowers in your hair
Years from now I will remember
This vow I made to show I care
Even as those flowers fade to brown
I will love you then as I do now

I give you my word
I swear that I will love you until time stands still
Forever I'm yours, for better or worse
I stand before God and give you my word
Oh, I do give you my word

There must be somebody watching
Over me from up above
'Cause they've sent me an angel
Knowing we'd make a perfect love
I don't know if words can go as deep
But here is my promise I will keep

I give you my word
I swear that I will love you until time stands still
Forever I'm yours, for better or worse
I stand before God and give you my word
Oh, I do give you my word

As God as my witness
Let the lightning strike me down
If I ever break this promise
Made on sacred ground

I give you my word
I swear that I will love you until time stands still
Forever I'm yours, for better or worse
I stand before God and give you my word
Oh, I do give you my word
Oh, I do give you my word
