I just got your letter dearest sweetheart and darling I
miss you oh so much
Your letter has cheered me but I'm lonesome lonesome
just to feel your loving touch
Letters have no arms dear to hold me kisses on paper
are so cold
These sweet things you write in your letter I want to be
with you dear been told
Letters never bring me the touch of your hand or none
of your sweet loving charms
I get so lonesome for you darling and you know that
letters have no arms
[steel]
Letters never bring me...
