There's a wedding today mine I know a heart that's so  
gay mine  
Just over the hill I know I will be able to see  
The old church steeple and all the people waitin' for me  
And I know there's a girl mine she's gonna live in this  
world of mine  
We'll say ours vows together to love each other till  
forever  
If there's one happy soul in this world it's mine  
[ organ ]  
I'm on top of the hill it's mine but something just  
brought the thrill of mine  
I see the old church steeple but something's wrong I  
see no people  
And what's worse I see no girl

Can it be that this girl of mine played the trick on this  
heart of mine  
Not long ago when I met her she stole my heart I can't  
forget her  
It looks like it's gonna be a broken heart mine
