

George Harrison "Sat Singing"

Visit "[Sat Singing](#)" on MotoLyrics.com

Sitting as the noonday sun
Shines high up in a clear blue sky.
While warming me I drift away
No mem'ries of the times gone by.
Oh, the moment that I lose my mind,
You come into my heart and say
I'm always here for you to love,
Surrender to me, let me stay- ay- ay.
Oo-oo
Oo-oo, du, du, du, du, du, du, du.

Sinking deeper still inside,
I feel awakened from my dreams.
Resting in some golden flow,
Becoming part of you it seems.

Nothing separates my life
From that which we have called our goal,
It's all in this external world
As results from deep within my soul-oul-oul.
Oo-oo
Oo-oo, du, du, du, du, du, du, du.
Oo-oo, du, du, du, du, du, du, du.

As I open up my eyes,
The sky has changed into a glow.
My sense of time had disappeared,
I see the sun has sunken low.

I feel such joy and call your name,
You're ev'rything my eyes could see.
I'll gladly kiss it all goodbye,
Stay ever in your company-ny-ny.
Oo-oo
Oo-oo, du, du, du, du, du, du, du.
Oo-oo, sri krishna,
Du, du, du, du, du, du, du.
Sat singing.
Sat, sat.
