If your life's not right, doesn't satisfy you  
Don't get the breaks like some of us do  
Better work it out; find where you've gone wrong  
Better do it soon as you don't have long

Get out of sour milk sea  
You don't belong there  
Get back to where you should be  
Find out what's going on there

If you want the most from everything you do  
In the shortest time your dreams come true  
In no time at all it makes you more aware  
Very simple process takes you there

Get out of sour milk sea

You don't belong there  
Get back to where you should be  
Find out what's going on there

Looking for release from limitation?  
There's nothing much without illumination  
Can fool-around with every different cult  
There's only one way brings result

Get out of sour milk sea  
You don't belong there  
Get back to where you should be  
Find out what's going on there
