When the show is over and every one is gone  
That's when this lonely feelin' comes along  
Everybody loves me while the show is goin' on  
But I need someone to love me after I sing all my  
songs.

I smile and face the music while they just cheer me on  
But this empty feeling keep on holdin' on  
Lord I wish I had somebody just to be my only one  
I need someone to hold me after I sing all my songs.

After I sing my songs, after the crowd is gone  
I need someone to hold me after I sing all my songs.

--- Instrumental ---

After I sing my songs, after the crowd is gone  
I need someone to hold me after I sing all my songs...
