Ain't love been good to us, ain't it been good
It's given us happiness and we're knockin' on wood
We're livin' in sunshine like we knew that we could
Ain't love been wonderful, oh, ain't it been good.

We walk through life side by side
We found the door to happiness open wide
And folks who gather now right where we stand
And love's been heaven here on earth in every ways.

The world is troubled in many ways
It seems the problem always are here to stay
But we'll keep holdin' on till the very end
And we'll get by no matter what shape the world is in.

Ain't love been good to us, ain't it been good
It's given us happiness and we're knockin' on wood
We're livin' in sunshine like we knew that we could
Ain't love been wonderful, oh, ain't it been good...
