It's so good to hear the word congratulations
It's so good to know at last, respect is mine
But as I stand here in the midst of all the conflict
There's a lovely face that's smiling, on my mind.

All the praises should be given to my woman
She's the one who helped me up when I was down, all
the way
All the praises should be given to my woman
She's the one who made me what I am today.

--- Instrumental ---

All the praises should be given to my woman
She's the one who helped me up when I was down. all
the way
All the praises should be given to my woman
She's the one who made me what I am today.

She's the one who made me what I am today...
