Christmas time is coming, that special time of year
When Santa and his reindeer magically appear
Bringing lots of presents in shinging green and red
To put a smile on every child 'cause Christmas is for
kids.

Christmas is for kids from one to ninety-nine
And the kid come out in everyone each year about this
time
So as we gather 'round the tree let's all and bow our
heads
And thank the Lord for all we have but most of all for
kids.

--- Instrumental ---

Uncle Joe threw snowballs till his fingers froze
And how the snow flakes tickled melting on your nose
There goes daddy down the hill riding on my sled
Well, I guess nobody told him that Christmas is for kids

Momma's popping popcorn that we'll put on a string
To wrap around the Christmas tree while everybody
sings
Grandma's telling stories bout the things that Jesus did
And grandpa's telling everyone that Christmas is for
kids

Christmas is for kids from one to ninety-nine
And the kid come out in everyone each year about this
time
So as we gather 'round the tree let's all and bow our
heads
And thank the Lord for all we have but most of all for
kids.

And thank the Lord for all we have but most of all for
kids...
