If you think, you can depend on me
Your right, you can
If you think, that I'm in love with you
Your right, I am
But nuthin' lasts forever
All good thing's must end
And it's only, a matter, of time

CHORUS:

Day after forever
I'm out that door
One way or the other
To return never more
Don't count on me baby
For I will be gone
Day after forever
Honey, you're on your own

If you think, I love you more than life
Your right, I do
If you think, your in my heart and soul
Your right, it's true
But I must leave you someday
Although I worship you
And it's only, a matter, of time

CHORUS:

Day after forever
I'm out that door
One way or the other
To return never more
Don't count on me baby
For I will be gone
Day after forever
Honey, you're on your own

Day after forever
Honey, you're on your own...
