Well, today you're goinna leave me, that you and I are  
through  
That's alright if that's what you want to do  
But you turned out to be unfaithful just like the rest  
So go ahead and leave, do what you think's best.

But I'll get by without your love I've done it before  
Old cupid wouldn't give us a shove you don't love me  
no more  
I know you tried it's plain you couldn't stand the test  
So go ahead and leave, do what you think's best.

--- Instrumental ---

If your poor old heart gets lonely and you wanna return  
Just make sure before you come back your lesson  
you've learned  
I'll be here with arms wide open I need you I confess  
It's up to you now do what you think's best.

But I'll get by without your love I've done it before  
Old cupid wouldn't give us a shove you don't love me  
no more  
I knowed you tried it's plain you couldn't stand the test  
Go ahead and leave, do what you think's best.

Go ahead and leave, do what you think's best...
