I can love you enough to keep you satisfied
And you won't have to search for someone new each
night
I can hold you and make you know you are my
everything
I can love you enough and let you know you're all I
need.

I can be the man you dreamed of, the one you need to
hold
'Cause you're my kind of woman and this time our love
will grow
I can make you know that you are wanted for the rest of
your life
I can love you enough and we can start tonight.

--- Instrumental ---

I will take away your lonely that you have known before
And if you should get weary I'll only love you more
I will live for you, I will love for you, you're all I'm
dreaming of
I can love you enough and I will give you all my love.

I can be the man you dreamed of, the one you need to
hold
'Cause you're my kind of woman and this time our love
should grow
I can make you know that you are wanted for the rest of
your life
I can love you enough and we can start tonight.
