Every day when I come home
You meet me at the door
And everynight your kisses leave me
Wanting so much more.

I reach for you and hold you
Like nobody else can do
You know I'm yours
I wish you loved me too.

I know you need me
I know you want me
I hope you love me
I've always loved you so.

I looked up into your eyes
And suddenly get weak
And I can always read your mind
Before you even speak.

I touched you and without a doubt
You know my love is real
I wish I knew exactly
How you feel.

I know you need me
I know you want me
I hope you love me
I've always loved you so...
