Thrill me with your big warm smile
Love me in your sweetest style
I want to be where you're gonna be tonight
Let me look into your eyes
Feel like I'm in paradise
I want to be where you're gonna be tonight.

I'm just not good without you
You're the one for me
I love everything about you
It's all plain to see

You gotta let me hold you longer
You gotta let our love grow stronger
I want to be where you're gonna be tonight.

--- Instrumental ---

I want you near me every day
To hear the sweet things that you say
I want to be where you're gonna be tonight
Won't you give our love a chance
I'm in the mood for sweet romance
I want to be where you're gonna be tonight.

I'm just not good without you
You're the one for me
I love everything about you
It's all plain to see

You gotta let me hold you longer
You gotta let our love grow stronger
I want to be where you're gonna be tonight.

I want to be where you're gonna be tonight..
