I just turned out the lights upstairs
I told you good night once again
Oh, but I did not hear it, you whisper a word
You must be sleepin' so I won't come in.

I told the kids to be quieter, mommy need her rest
How much silence in this old house must I find
Why I even expected, oh, but nobody showed up
I'm alone now, it's been all in my mind.

Yes, it's all in my mind you've left nothin' behind
I just sit here and dig up all the miseries I can find
I'll just turn on that old tv, and while you pour the wine
I love you, but it's all in my mind.

--- Instrumental ---

I'll just turn on that old tv and while you pour the wine
I love you, oh, but it's all in my mind.

How do you keep it, it's been all in my mind...
