(Tammy)

The sun is shining down
Not one cloud around
The morning hits me
Where I lay.

Everything is green
A perfect day it seems
Yes, he's got everything, his way
But I've seen better days.
I've seen better days.

Chorus:

When the rain was pouring down
And he had his loving arms wrapped around me
I've seen better days.

(George)

The neighbors come and go
As they smile and wave hello
And all the kids are out to play,

Lollipops and good times
Lord, they look so much like mine
Aww but she has taken mine away
Lord, I've seen better days
Yes, I've seen better days.

Chorus:

When the rain was pouring down
And she had his loving arms wrapped around me
I've seen better days.

(Both)

We've seen better days...
